Forecast for Wednesday 12 Aug 2020

Weather: Long clear spells overnight though cloud amounts will increase towards dawn. During the morning cloud will break allowing long sunny spells to develop. However, cloud will build again during the afternoon with a risk of heavy or thundery showers affecting the park. The risk of thundery showers will continue through the evening.

Chance of cloud free mountain/hill tops above 600m: Generally 100% throughout, but 30-40% chance in the morning, with cloud bases down to 300-400m on eastern peaks and summits. Occasionally down to 500-600m in heavy showers and thunderstorms during the afternoon and evening.

Visibility: Generally good or very good throughout. Poor in low cloud early morning. Moderate or poor in heavy showers and thunderstorms during the afternoon.

Meteorologist's View

UV levels will be high, therefore extra care will be needed if spending any length of time on the peaks in the strong sunshine. Lightning will be an additional hazard in thunderstorms.
